WHO WE ARE

HOOKD APPAREL is an on-line apparel shop that specializes in the production and sales of handmade crochet pieces. We are a small business run from San Luis Obispo, selling mainly through online platforms such as Depop, Instagram, and their website. Furthermore, we create sales through a combination of stock and custom products, producing a variety of different articles of clothing fitting to the individual customer. Our company takes pride in their sustainable production processes, along with the high quality and uniqueness of their pieces.

Our mission is to produce and deliver sustainable, fashionable apparel to increase support towards shopping sustainably and choosing quality over quantity when it comes to clothing.
